

Specifications

Technical Specifications

Detecting range: 800-1500 MHz

1800-2500 MHz

Detecting sensitivity: $\leq 0.05\text{mw}$ (in main detecting frequency range)

Working range: $>70\text{Db}$

Indicator: 9 grades of LED light indicators / tonal modification sound indicator

Maximum effective range: 20 meters

Antenna: External, Omnidirectional

Power supply: 9V alkaline battery

Working temperature: 15°C to $+60^{\circ}\text{C}$

Working humidity: 5%-80%

Physical specifications

Product size: 115x62x24 mm

Product weight: 102 g

Package size: 233x152x80 mm

Package weight: 383 g

Battery type: Alkaline

Package contents

Spare battery: 1 unit
